## COURSE OUTLINE

Department: AS&H

A.Y.:2022-23 SEM-II

Date:27th Feb,2023.

Class: S.Y. B. Tech [All programs]

Name of the Course: **Numerical Methods**

### Relevance of the course:

Numerical Methods provide efficient and reliable solutions to the problems arising in different areas of Mathematics. It is an extremely powerful technology that enables companies/organizations to solve complex real world problems and provide solution quickly and easily compared to analytic solutions.

Mathematical programming allows you to capture the key features of a complex real-world problem.

This course requires basic knowledge of following courses:

- Linear Algebra and Univariate calculus
- Multivariate calculus
- Applied Mathematics
